| Web Developer | Ex- PIECODES PVT. LTD. GUNA (M.P) |
|---|---|
| 10 Aug 2021 to 15 Nov 2022 | Design and establish user friendly websites including back-end API's using NodeJS and MySql database. Mostly work on NodeJS REST API's various platform like Strapi , nodejs , medusa. |

## PROJECTS :-

Your archive :- http://yourarchiv.com
- Developed a web application using Node.js and MySQL for back-end, and React.js with Redux Toolkit for front-end.
- Users can save and share articles with friends.

Rajguru-Gems : - https://rajgurugems.com/
- Developed a web application using Node.js and MySQL for back-end, and React.js with Redux Toolkit for front-end.
- User can find and compare multiple diamonds and buy diamonds juileries.

Opensea :-
In this project, APIs are provided for the users. Along with testing APIs for public users, there are also purchase APIs available. The project offers an API collection similar to Swagger, which users can test and purchase based on their requirements. For payment processing, the user utilizes the Stripe gateway, which has been implemented using Node.js and React.js.

E-learning :-
E-learning is a Learning/Content Management System (LMS). It can be used in application domains where learning, training, and intellectual progress of personnel is a critical process. It is a tool for creating, organizing, sharing, publicizing, and generating revenue of informational content.

College FAQs :- https://collegefaqs.com/
- Collegefaqs.com is one of its kind of education start-up providing the most factual information about courses and colleges, making it easy for students to select and pursue Undergraduate (UG) and Postgraduate (PG) courses in India.
- Developed a web application using Node.js and MySQL for back-end, and React.js with Redux Toolkit for front-end.
